NotesForge - Cybersecurity Incident Summary

Executive Summary

A brief summary of the incident, its impact, and immediate actions taken.

Details

The incident occurred on 2026-02-24 at 22:15 IST. Affected systems included DB server and internal API.

- Initial detection via IDS alert.
- Systems isolated.
- Forensic snapshot taken.

Indicators of Compromise (IOCs)

Type	Value	Notes
IP	**203.0.113.45**	**Suspicious outbound traffic**
Hash	**e3b0c442...**	**Malware sample hash**

Recommendations

1. Rotate compromised credentials.
2. Patch vulnerable services.
3. Run a full internal audit.

```
curl -X GET "https://internal-api.local/health" -H "Authorization: Bearer <token>"
```
